

Shape Sorting Sensory Bin

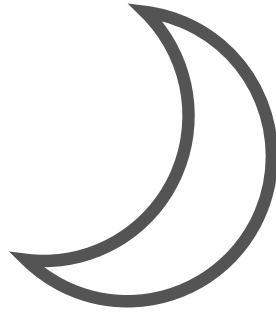

These printables are the property of Taming Little Monsters and are protected by copyright and intellectual property rights under international conventions. They are for personal use only and are not to be reproduced for commercial purposes.

Included in this printable are shape templates. These are designed in black and white, so that they can be printed out on different colored paper. No need to worry about wasting ink.

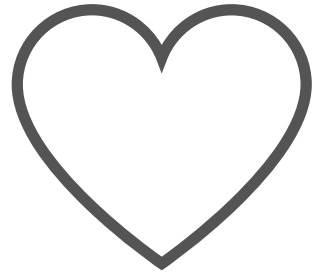

There are also Shape Signs included, designed to be attach to the containers that you want the shapes to be sorted into. Of course these are optional, but they give the kids a clear starting point.
