Salt Painted Jellyfish Template

About

Thank you so much for downloading this product. We hope that it will be a valuable resource in your Early Learning Classroom.

This activity is designed for children aged 2 years and older. It will help them to develop fine motor skills, vocabulary, and more

Prep

Step 1: Download and print the following page.

Step 2: Cover the lines of the jellyfish with liquid craft glue. When the entire jellyfish is done, cover the glue with salt.

Step 3: Gently press the salt into the glue to ensure the salt stays in place. Shake off any excess salt and then let the picture dry.

Step 4: In a separate container, mix food coloring into water, or use water color paint.

Step 5: Grab some paintbrushes or pipettes and enjoy learning.

Directions

Step 1: Say the name of the animal in the picture. Discuss where it lives, what it eats and how it moves.

Step 2: Use the paintbrushes or pipettes to apply the coloured water or paint to the salt

Step 3: If the paint doesn't take to the salt as easily as you would like. Add a bit more water. The more watered down the paint, the easier it is for the salt to absorb it.

Step 4: Let your picture dry
